Our Unrivaled Mammoth Verbenas

For 50 cents we will send 15 strong plants in many shades, or all of one color, as may be desired.

Next to the Geranium the Verbena is the most popular and useful of bedding plants. The collection we offer is as fine a collection as could be found on this continent, containing the most brilliant colors and some right fragrant varieties. In order to keep the plants in the best blooming condition, cut all faded flowers off and even a severe trimming or clipping tends only to strengthen the plants and keep them in better shape for late flowering. The demand we had the past season for this popular flower was simply enormous.

Special Low Priced Collection of Plants

ONLY 50 CENTS will buy any of the collections named below, delivered safely by mail, postpaid, to any address. The collections are all fine, strong plants of the best varieties, and are marvels of cheapness. We can only afford to sell them so cheaply by growing these sorts in immense numbers. The choice of varieties must invariably be left to us, the purchaser simply naming the number of set or sets desired. There are no two varieties alike in the same collection. Give this mode of purchasing plants a trial. We are confident it will please you. Order these collections by number.

INFORMATION FOR PURCHASERS

WHEN YOU ORDER, please use the printed envelope and order sheet enclosed. Always write your name the same, adding the postoffice, county and state on each and every communication you send us. If you have occasion to write us, please use a separate sheet.

LOST OR UNSIGNED ORDERS. Letters are often sent us unsigned and letters are sometimes lost in the mails. If you do not hear from us within a reasonable time, please send us a duplicate of your order, stating when and in what form payment was sent and sign the name and address the same as in the first order, so that it may have immediate attention.

HOW TO SEND MONEY. Our terms are cash. To avoid delay, please send money with order. Money may be sent at our risk if forwarded by P. O. Money Order, Express Money Order, Bank Draft or in Registered Letter, and cost of same may be deducted from amount forwarded; but we can not be responsible for any order or money that fails to reach us when not sent as above directed. **CASH** should be sent by Registered Letter, but coins should be carefully wrapped and care taken to seal letter securely. New postage stamps accepted.

OUR GUARANTEE. We guarantee all our plants to reach their destination in a good growing condition. Do not be confused with senseless guarantees which mean nothing. **This is our Guarantee.** Furthermore, we guarantee that when goods are received, if they are not thoroughly satisfactory, we will make them so or refund your money. When plants reach you in good condition and are planted with ordinary care, there is no difficulty in guaranteeing them to bloom at the time nature intended they should. Vestal's plants are guaranteed to reach you in first-class condition, and if you give them any kind of care, we guarantee them to grow and bloom.

OUR RESPONSIBILITY. As stated, we guarantee all goods to reach their destination in a live condition, but when we have done this, our responsibility ceases, because we know that if they receive proper treatment they will grow nicely. Many plants die from careless treatment and neglect; in such cases we can not and should not be expected to replace them.

ERRORS. As an evidence of our human failings we sometimes make mistakes. Careful as we are to protect ourselves and our patrons, preach as much as we

will to our employees, yet they occur; when they do, notify us at once; we will correct them promptly.

WHEN SENDING CLUB ORDERS, please give full name and address of each member of the club, so that we may enter their names on our books and forward them our Catalogues as issued.

ORDERS BY EXPRESS. Two year old roses, large size shrubbery, fruit trees, etc., are too large to mail and must be sent by express. We recommend that customers instruct us to ship smaller size plants also by express, when in our judgment it is best to do so. We can send larger plants this way and can leave most of the earth on roots, which is of course much better for our customers. **Express charges must be paid by the purchaser**, unless otherwise agreed. But we are careful to pack as light as safety of the plants will permit and add as many extras as we can afford to help cover charges, and since the expressage on plants, bulbs, etc., is now twenty per cent less than regular merchandise rates, the cost of sending goods in this way, even to distant points, is quite reasonable.

Parcel Post

Heretofore the limit of weight of a package of mailable plants, bulbs and seeds has been four pounds. The newly established system of Parcel post simply gives the added privileges of transferring through the mails packages of mailable plants, bulbs, seeds, etc., of weight up to twenty pounds. Do not construe this to mean, however, that the increased size of packages allows carrying express size plants. It only permits of sending you larger orders of mailable plants. Don't request blooming plants with soil attached to roots sent by parcel post. It can't be done.

The firm VESTAL & SON has no connection whatever with any other concern in Little Rock or elsewhere, but is the old original firm established on this present site by its founder, JOSEPH W. VESTAL, in 1880. Letters addressed to VESTAL, LITTLE ROCK, ARKANSAS, will reach us.

VESTAL ROSES AND HOW TO GROW THEM

"He who would have beautiful Roses in his garden must have beautiful Roses in his heart. He must love them well and always. He must have not only the glowing admiration, the enthusiasm and the passion, but the tenderness, the thoughtfulness, the reverence, the watchfulness of love." So wrote Dean Hole, the rosarian of beloved memory.

A PLEASANT HOBBY. Growing Roses is not an expensive luxury, neither does it require a large amount of hard labor. A love and devotion that begets intelligent, diligent care when needed is the great requisite.

Having chosen the location for our Roses, let us make ready the bed. The simplest and easiest way is to spade the soil deeply and mix with it a good supply of well-decayed stable manure. But to raise the best Roses it will pay to be more thorough.

PLEASURE OF ROSE GROWING. Rose growing (watching the growth, development and habits of the different varieties) is a most fascinating and interesting study. Start a small Rose garden by our method, and with our vigorous bushes you will soon insist on having a larger one. The work is so healthful and pleasing that it is rapidly becoming as much a "fad" as is amateur photography. Think of the joy of having beautiful Roses blossoming at your very door, sending their fragrance to meet you as you cross the threshold, and yielding enough flowers to fill every room in your house with their perfume. The first bouquet cut from the bushes in your yard will give more pleasure than any ten dollars worth of Roses you ever had from a florist.

SOIL. If the soil is naturally well drained, it will be unnecessary to provide drainage. But nothing is more prejudicial to the health of Roses than poorly-drained soil, therefore, if needful, provide drainage. Dig a trench to the depth of 2½ feet, and in the bottom deposit a 4- or 5-inch layer of drainage material so that all surplus water will drain away quickly. It is a good idea to mix with the soil in the bottom of the trench a few broken bones, say a peck, for a bed holding a dozen Roses—they will furnish plant food for the Roses for three or four years to come. A rich, deep clay loam is the best soil. If it contains grass roots, or is made up of rooted sods, all the better; any ordinary soil will answer, providing it is well manured.

MANURES. While manure from the cow-stable is probably best, you can draw upon the horse-stable or pig-sty with equal expectation of good results. Well-rotted leaves are fair, but too light except for heavy soils. Commercial fertilizers, such as bone or guano, may be used to advantage if handled with discretion. A rule to remember is never to let any "green" or "raw" manure come close to the roots of your Roses, but see that it is buried well beneath the root reach, or applied as a top-dressing.

The best time to apply manures is just as the ground begins to freeze in the autumn; let it serve as a protection over winter and dig it in next spring. Even with the best care it may prove necessary at times, say after six or eight years, to renew the Roses or move the bed, adopting the farmer's principle of rotation of crops.

TREATMENT ON ARRIVAL. When you receive the Roses, give them the greatest care; never expose the roots to the drying action of spring winds for a moment. A plant with bare roots exposed to the dry air is like a fish out of water. Should the plants, through delay in transit, come dried out, as occasionally happens, soak the balls of earth and roots in water; if the stems have dried out, after soaking the ball, bury

the whole plant in damp earth for several days. This treatment may put them in good condition, while if they are planted when dried out there is danger of their dying.

TIME TO PLANT. The proper time for planting in the various sections of the country largely depends, first upon the location, and, second, upon the character of the plant. In the warm climate, southern and southwestern states, in fact all sections where frosts are infrequent and the winters mild, pot-grown as well as dormant Roses may be planted in the late fall, as well as in the early spring. In the southern states fall planting of both these classes of Roses is considered desirable, but, if the conditions are such that it can not be accomplished, then in the early spring months they may be set out with entire safety.

As to where the preference lies between plants that are pot-grown under glass, and dormant, field-grown plants, it is not easy to discriminate. Our own experience has been that in the southern and southwestern states, the planting of the one-year-old Roses during the months of February, March and April, according to the location, may be accomplished with splendid satisfaction.

MULCHING. The main object being to retain the moisture rather than to enrich the soil, cultivate the garden once a week up to the middle of July, to maintain a dust mulch; after that, a liberal covering of "long" cow or horse stable manure that will not heat will accomplish this purpose best.

HARDINESS. Hardiness in a Rose is a matter of which no one can speak with positive certainty, because the condition of the weather as a rule prescribes the hardiness of a plant, as quite frequently plants that have been out year after year will be winter killed by unusual conditions. As stated elsewhere, the hardiness of the different varieties of plants can be depended upon to be as near accurate as it is possible for any one to determine.

WINTER PROTECTION. Where the temperature gets below freezing, the less hardy Roses will require protection, and all of them will be the better for it, at least about the roots. Soon after the first frost, having hilled up the soil around the stems, cover the Rose beds all over with a 3- or 4-inch layer of good heavy stable manure, and over this a 6-inch layer of leaves, held in place by the most slight material available. A 12-inch fence of poultry wire will keep the leaves in bounds nicely. If the leaves are not available, straw, corn-fodder and even boxes put over the Roses to shed the rains, will protect from the cold, biting winds and the alternate freezing and thawing of early spring sunshine and cold nights; but do not smother the

Roses, for if too tightly covered they will die. Remove the covering gradually in the spring when danger from frost is past.

The plants I ordered a few weeks ago came in good shape, and I am well pleased with them. I am giving you a lot of free advertising in my neighborhood. Every one who has seen my plants is carried away with them, especially the Roses.

MRS. W. H. N., Shreveport, La.

Showing where to prune

HOW TO PRUNE YOUR ROSES

Pruning is the art of improving the productive power and the appearance of a plant. It consists of two distinct operations. 1. The removal of dead, weak, overcrowded, and otherwise useless shoots. Unripe wood which in the spring will usually be found to have discolored pith, caused by the winter frosts, should be cut clean away at the base of the shoot. 2. **Pruning Proper**, the shortening of those shoots which are allowed to remain after the thinning-out process has been completed.

The most frequent errors made in pruning are: (1) leaving too many shoots when thinning out. (2) pruning severely the shoots of varieties which require little, if any, shortening; (3) pruning lightly the varieties which require severe pruning; (4) leaving Rose plants crowded with shoots and cutting these to a uniform length all over the plant in a similar way that a hedge is clipped.

In thinning out a shoot, it should be either cut clean away to the base of the plant, or to its starting point on the elder shoot from which it springs, as the case may be. When the plant has been pruned, the shoots should be left as nearly as possible equidistant from each other, and regularly arranged around it so that it presents a well-balanced appearance on all sides.—National Rose Society's Handbook on Pruning.

Diseases and Insects

MILDEW—This disease very frequently attacks the foliage of Roses, especially the Crimson Rambler. It is shown by a grayish crinkling appearance of the leaves and usually occurs after a change in the temperature. It

can be checked to a certain extent by sprinkling the leaves with powdered sulphur immediately after its appearance. If, however, this does not check it, dissolve one ounce of potassium sulphuret in two gallons of cold water and apply a fine spray.

GREEN FLY OR APHIS—A green sucking insect which usually gathers in great numbers upon the tips of the new growth. A solution of tobacco made from tobacco insecticide soap, which you will find offered elsewhere in this book, will exterminate them.

RED SPIDER—Is also a small insect indiscernible to the naked eye, and a frequent spraying with a strong hose is all that is necessary.

LEAF ROLLER—Is an insect of yellowish-white color, resembling the butterfly, and lays eggs on the underside of the leaf, which soon form a cocoon, rolling around itself the leaf, hence the name, leaf-roller.

ROSE BUG—A familiar insect, appears in the earliest summer, sometimes in great quantities, and is very troublesome. It is a very destructive insect and usually feeds upon the white petals, but is easily destroyed, especially in the early morning, when they will readily fall into a vessel containing kerosene. They can be poisoned, but it is not a very desirable way to get rid of them. This is to spray with wood alcohol, which will kill any insect by contact, operates quickly and does not injure the flower if applied in a mist-like spray. Care should be exercised by the operator not to inhale any of the fumes.

BLACK SPOT—A fungous disease, appearing as its name indicates as a black spot upon the leaf, eventually turning yellow and falling. It rarely occurs in the early part of the season, and the Teas are almost but not quite, exempt from its ravages. The best preventative if your bushes have been troubled by it in the past is spraying in April before the foliage has developed and not while the flowers are in bloom, because of the discoloration of the foliage. The disease usually appears at the base of the plant and works upwards, so a watch should be kept and as soon as any leaves appear affected with this disease they should be pulled off and taken entirely away from the balance of the plants. If this is thoroughly done it will usually hold the disease in check.

Grape Dust. For mildew, mold or rust mites. Price $\frac{1}{2}$ lb., 25 cts., postpaid.

Bordeaux Mixture. (Dry.) For dusting plants affected with mildew and all fungous diseases. Can be used as a spray. 1-lb. box, 35 cts. (makes 5 gallons liquid); 5 lbs., \$1.25, by express.

Slug Shot. Is an Insecticide for the destruction of Potato and Rose Bugs, and all Lice, Worms or Caterpillars upon Melons, Eggs, Cucumbers, Cotton, Tobacco and Cabbage Plants, Tomatoes, Currants, Fruit or Ornamental Trees, Grape Vines, Shrubs and Flowering Plants. An admirable remedy for the Black Clematis Bug.

Directions for Use: Slug Shot is an impalpable composite powder, to be dusted upon the plants. It contains Poison, thoroughly diffused through natural fertilizers, and is perfectly safe in its use to man or beast. Price, one-pound package, 25 cents, prepaid.

RUBBER PLANT SPRINKLER. Large size, \$1.10 postpaid.

Bowker's Ammoniated Food for Flowers

A new odorless Fertilizer for Pot plants. Makes plants grow and bloom luxuriantly, and drives insects from the soil.

It starts the plant at once into a healthy and vigorous growth and abundant bloom. It drives worms and other troublesome insects from the soil. It has no disagreeable odor, and is the only artificial fertilizer which can be used without danger or injury to the plants. It takes the place of liquid manure, and is just the thing that has been wanted for a long time. We have

sold tens of thousands of packages of it, and have yet to hear the first complaint. If your plants are doing poorly, get a packet and see how quickly they will be benefited. It acts like a charm. The Ammoniated Food is put up in wooden boxes, with attractive wrappers. One package, sufficient for twenty-five ordinary-sized plants for one year, for 50 cents. Sent by mail, postage prepaid, on receipt of price.

Insecticides

Thompson's Rose Nicotine is chemically pure nicotine and quick death to insects on Roses. Very convenient to use—no trouble, no odor, no staining; simply apply as directed with spray pump or plant sprinkler. Small can 30 cents, larger size, 60 cents, postpaid.

Tobacco Powder—The Sprinkling Kind for Sprinkling or Dusting Only. is made from heavy black leaf tobacco, strong in nicotine, and so finely pulverized that it can be applied with an ordinary magazine bellows gun direct to plants, indoors or out, or sprinkled around the hothouse to keep the pests in check. Price, one-pound package, 35 cents.

Sulpho-Tobacco Soap. Another splendid insecticide. Directions for use on every package. 3-oz. cake, makes 1½ gallons prepared solution, 15 cts. each; 8-oz. cake, makes 4 gallons prepared solution, 30 cts., postpaid.

Hellebore, Powdered White. For the destruction of slugs, worms, caterpillars, etc. Less poisonous than Paris green and London purple, and safer to use. Use as a powder or dissolve one ounce in three gallons of water. Postpaid, $\frac{1}{2}$ lb., 40 cts.; lb. 75 cts.

CHRYSANTHEMUMS WIN PRIZES.

Last year my wife ordered from you a white Chrysanthemum, listed in your catalogue as Glacier. The plant developed five of the most noble flowers I have ever seen. It won us three firsts at our flower show last year, and was admired by everyone.

Buds long and pointed, opening up into large, full flowers. Color silvery lilac-rose, graduating into amber-white at the base of the petals. An excellent out-door Rose.

Queen Mary

A vigorous growing, free-flowering Rose of great beauty and refinement; flowers of medium size and fine form, color bright canary-yellow, crayoned at edges with pure, deep carmine, a charming color combination and most delightful contrast, as the colors do not commingle.

Price, 20c each for all Roses on this page, except where noted; 50c for any 3; larger size, 25c each, postpaid; two-year-old plants, 45c each, by express.

ARTHUR R. GOODWIN

A strikingly beautiful bedding Rose. The buds are coppery-orange red, passing to salmon-pink as the flowers expand, a superb combination of color. It is of strong constitution, free from mildew, and a very free bloomer. The foliage is distinct and glossy. This is a unique variety and will be hailed with delight by all who admire distinctiveness in Roses.

Chrissie Mackellar

A splendidly colored semi-double flower which is particularly rich and showy in the semi-expanded state, color a deep ochry-madder, crayoned and veined crimson-carmine, opening to a bright orange-pink; very free and effective, deliciously tea-scented.

Crimson Queen

A new Rose of exceptional merit. The color is a beautiful shade of carmine-crimson. It is a grand Rose for winter forcing and of equal if not greater value for summer gardens. The flowers are large and full, broad at the base and tapering gracefully to a point. A vigorous grower with free branching habit and beautiful foliage.

Colleen

Brilliant rose, shaded rose-pink with deeper, rose-crimson veneering on a distinct creamy-yellow ground, never fading until the petals drop. It is quite full with high pointed center, forming a remarkably sweet-scented flower.

Duchess of Wellington

The ground color is chrome-yellow through which run veins of rich orange and shadings of the same running into the rich yellow. Like all high-colored Roses it varies, but the rule is, that it intensifies rather than lightens in its wonderful shadings.

Edith Part

A Rose with a novel and entirely distinct blend of color, which is a rich red with a suffusion of deep salmon and coppery-yellow with a deeper shading in the bud stage of carmine and yellow; very sweetly scented.

Florence Forrester

A new white Hybrid Tea Rose, remarkable for the size of its flowers. Makes splendid buds and immense flowers as large or even larger than the *Paul Neyron*. Its habit of growth is perfect and the freedom with which it blooms is marvelous. The color is white tinted with lemon passing to pure white as the flower expands.

Lady Mary Ward

Rich orange, shaded deeper apricot-orange with a decided metallic veneering, very brilliant and attractive and entirely distinct. A color that will appeal to all, a strong grower, very free and sweetly perfumed.

George Reimers

Fiery-red, with shades of garnet and ruby reds commingled; more lustrous than *Richmond*; large perfectly formed flowers with massive petals; long bud; continuous bloomer. Will have a great future.

General Superior Arnold Janssen

A deep glowing carmine; a very effective color, with long finely formed buds, the open flowers full and sweet. A splendid bedding Rose, and a fine long-stemmed cut flower.

Dear Sir: Please accept my sincerest thanks for the Roses which you sent me. They arrived in splendid condition. I have shown them to a number of my friends and expect you will receive several nice orders from them this Fall. I am, respectfully,

MRS. V. H., Altus, Ark.

The Latest and Best Productions in Roses--Contd.

Mme. Edouard Herriot

This variety gained great prominence in Europe as the "Daily Mail Rose." It is a wonderful rose, and one which we think will become very popular because of its wonderful freedom of bloom and fascinating color. The combination of color shown in the buds and flowers is distinct and charming. In the bud it is coral-red shaded with yellow at the base, the open flowers coral-red shaded with yellow and bright rosy-scarlet, passing to shrimp-red; flowers of medium size, well formed and not too full. A most vigorous grower, of a spreading, branching habit, with ample bronze-green foliage.

Mrs. Frederick W. Vanderbilt

Deep orange-red, shaded bronze-apricot-red, quite distinct from any other Rose in cultivation, a marvelously attractive variety in this novel coloring. The flower is perfect in shape, very fragrant, and is produced freely throughout the season.

Mrs. Charles E. Pearson

An exquisitely colored attractive flower; orange, flushed red, apricot, fawn and yellow, of good size and freely produced on erect stems, delightfully scented.

A delightful garden Rose with vigorous, free branching growth, flowering freely and continuously on long, upright stems. Flowers of medium to large size, of fine form and good substance. Color clear primrose-yellow, paling with age to creamy-yellow. A splendid bedding Rose and altogether a grand variety.

Mrs. Andrew Carnegie

Four Extra-Choice Roses

Four Distinct Colors---Hardy and Fragrant

RED RADIANCE

This beautiful new Rose is a very charming Rose and is particularly valuable because red has been a very scarce color among Tea Roses, and this one seems exceptionally fine. Price, 20 cents each; two-year-old plants, 50 cents each.

Radiance

An American Triumph.

Not to be outdone by European growers, America contributes this great new Rose, and in every particular, gloriously formed flowers, immensely in size, exquisite fragrance, grand foliage, healthy growth, color and freedom of bloom, Radiance is fully the equal of Jonkheer J. L. Mock, which fact ought to give it entrance into every Rose garden in America. In color of flower it is both unique and beautiful—bright carmine-rose with opal and coppery reflections. Hardy everywhere with protection; as its name suggests it is radiantly beautiful. Price, one-year-old plants, 15 cents each; two-year-old plants, 35 cents each.

British Queen

By some said to be the finest white Rose in existence, surpassing in beauty and form any other white Rose. The flower resembles Frau Karl Druschki and White Maman Cochet, with the Tea Rose form and refinement. Flowers freely all summer long from early spring until frost. Buds sometimes show a slight flush which disappears as the flower expands. Strong grower. Hardy. Awarded a gold medal by the National Rose Society of England. Price, one-year, 20 cents; two-year, 50 cents each.

Helena Cambier

Of unusual beauty, with large, double, beautifully formed flowers, the colors are varying, ranging from salmon-rose to coppery rose; very often a handsome saffron hue. As the flowers expand, the colors become lighter. A most remarkable sort in every respect and one to which we give our highest endorsement. Good everywhere, especially in the South. Price, one-year plants, 15 cents each; two-year, 40 cents each.

The Beautiful La France Roses

Pink La France Rose

Helen Gould

It has proven itself to be the strongest growing, freest blooming, largest flowering and hardiest Rose in existence. It is a better Rose for general planting than American Beauty—the dream and hope of every Rose grower for years past. A strong, dwarf, compact grower, absolutely free from disease of all kinds, young plants blooming continuously throughout the year. The flowers are as large as the American Beauty, are full and perfectly double; the buds are beautifully made, long and pointed, produced on long, stiff, erect stems. The color is a warm rosy crimson, the color of a ripe watermelon. Price, 15 cents each; large plants, 40 cents each.

The La France Roses are of the highest merit, and each member of the family has particularly strong points. Practically hardy everywhere, they are splendidly adapted for general planting.

Price of all the La France Roses, 15 cents each, 4 for 50 cents; two-year-old plants, 40 cents each.

LA FRANCE. This is probably the most popular Rose in cultivation. Both buds and flowers are of lovely form and grand size, exceedingly sweet; color fine peach-blossom, elegantly clouded with rosy flesh. Begins to bloom while very small, and continues bearing until stopped by freezing weather.

WHITE LA FRANCE. A seedling of La France; extra-large, full, deep, pearly white flowers, delicately shaded with soft rose; exquisitely beautiful and delightfully fragrant.

RED LA FRANCE. This is a superb Rose, belonging to the Hybrid Tea class, and closely resembles La France, but much deeper in color and a better grower; the flowers are extra large, exceedingly beautiful, very double and full and deliciously sweet; color lovely rose-pink, very deep and exquisitely shaded; a constant bloomer.

THE STRIPED LA FRANCE. An elegant new Rose, closely resembling La France in form and substance, but the flowers are distinctly striped with pearl-white and satin-rose.

SPECIAL OFFER—Set of 4 charming La France Roses, 1-year size, 50 cents, postpaid; 2-year size, \$1.40 by express.

Sunset Rose

One of the Finest of all Yellow Roses

A strong, vigorous grower and free bloomer, highly recommended both for open ground and house culture, which makes it more desirable. The flowers and buds are of extra large size, very full and finely formed and highly perfumed. Color, rich golden amber or gold, elegantly shaded with dark ruby-crimson, resembling the beautiful tints seen in a summer sunset. Strong, 20c each; two-year-old plants, 40c each.

Rhea Reid

Great New Scarlet Rose.

After many tests and observations we are prepared to say there is no crimson or scarlet Rose better than this variety and for outdoor cultivation it ranks at the very top of the list. The flowers are exquisitely formed, are delightfully fragrant and the color is crimson-scarlet. Growth is wonderfully strong, sturdy and healthy, which is the important feature after all. It will succeed anywhere and is hardy. A great Rose in the fullest sense. Price, one-year-old plants, 15 cents each; two-year-old plants, 40 cents each.

Our Roses

Are grown in THREE-INCH pots.

They are superior to the young Roses from two-inch pots usually sent out because the larger pot gives ample room for root action and allows the plant to grow naturally. They are sturdy and compact and when sent by express with the soil on the roots, transplanting scarcely checks their growth. The cut shows a fair sample of the two-inch pot plants as usually sent out by the mail trade, (and a fair sample taken from our stock, growing in three-inch pots.)

NOT EVEN WILTED.

The box of flowers was received from you several days ago, and they were in good condition. They are all doing nicely; they have not even wilted. Thank you very much for extras which you so kindly sent.

MRS. J. H., Tishomingo, Okla.

FRANCO RUSSIA

A new Rose of exquisite kind and color, ranked by many enthusiasts as the best yellow Tea Rose. The flowers are of large size, perfectly double to the center and perfect in shape both in bud and blossoms. The color is magnificent—deep rich lemon yellow, with creamy yellow center with tints of sulphur. It is beautiful beyond description. A strong, healthy grower, and one of the grandest Roses in this book. Price, 15 cents each; two-year-old plants, 35 cents each.

William Notting

Hybrid Tea. This magnificent Rose has not been given the prominence that it deserves since its introduction in 1904. The blooms are very large, full and double, and of a perfect formation. Color a bright rosy cerise with a deeper center and delightfully fragrant. A very satisfactory bedding rose. Hardy and everblooming. Price, 20 cents each; two-year-old plants, 50 cents each.

Mad. De Watteville

The Tulip Rose. The color is a magnificent shade of creamy yellow, richly colored with rosy blush; the large petals are bordered with bright crimson, giving it a very striking and beautiful appearance. Price, one-year-old plants, 15 cents each; two-year-old plants, 35 cents each.

The New Orange Yellow Rose

Herzogin Marie Antoinette

Hybrid Tea of deep orange, striped salmon crimson, passing to old gold or orange. Very large flowers of perfect form produced on heavy upright canes. One of the finest yellow Roses, being a very free bloomer. Sweetly perfumed. Price of strong one-year-old pot plants, 25 cents each; two-year-old plants, 50 cents.

Robin Hood

This new Rose has a glorious rosy-scarlet color that is at once soft and bright and lasting; the bloom is full and of beautiful build. It is a grand grower, heavy caned and profuse in foliage; flowers very freely produced. Price 20 cents for one-year plants; 50 cents for two-year plants.

Perle Von Godesburg

A superb New Yellow Rose. Yellow Hybrid Tea Roses are all too scarce, and this splendid variety sent out from Germany as Yellow Kaiserin Augusta Victoria, is extremely meritorious. Color is rich canary-yellow with light saffron shadings. Strong grower and free-bloomer. Price, one-year-old plants, 20 cents each; two-year-old plants, 40 cents each.

Madison Rose

(Illustrated on back of cover.)

Madison is one of the very best of the new Roses, and one that has so many good qualities that we are quite certain it will find a place in the garden of every flower lover. It has been thoroughly tested by us and we have formed such a high opinion of it that, this year, we have grown an unusually large stock in order to give the Rose the widest possible distribution. The buds are most beautiful, of immense size, and are borne up high on massive stems, and with their round, full, heavy form, carry an air of grace and dignity quite unusual. The flowers are the clearest, snowiest white, and are arranged in the most faultless and symmetrical manner. The fine form and attractive shape of the flowers make them excellent for cutting. Like Kaiserin Augusta Victoria, Madison is a Rose of great value for open-ground culture. Price, one-year-old plants, 20 cents each; two-year-old plants, 60 cents each.

Dear Sirs. My father is enclosing a check for the flowers received from you recently. They were in perfect condition and excellent values. I appreciate your promptness and kindness in selections. Thanking you, I am,
Sincerely yours,

N. R., Malvern, Ark.

Mrs. George Sawyer

It is without question the most remarkable of all pink Roses. It has a shining, intense deep pink color possessed by no other Rose. It is a fine grower, free bloomer, good size and form, fragrant and in a class by itself as to color. NEW ROSE PRINCE DE ARENBERG

This is one of the newer Roses that has been brought prominently before the public this season and we have not seen a Rose that has met with such universal appreciation by both amateur and professional growers. To those who prefer a Rose with full color we can recommend none more highly than this gorgeous crimson scarlet rose. It is hardy in practically all localities and as an out-door garden Rose it has no superior. Of strong, vigorous, healthy growth, branching freely; it produces its wonderful blooms profusely from April until December. Every shoot carries a well-formed flower of exquisite fragrance and splendid lasting qualities. The illustration gives but a faint idea of the richness of this magnificent Rose. The Always Popular Cochet Roses

If you want five of the finest Roses listed in this book, which will produce hundreds of superb flowers throughout the growing season, and producing the kind of flowers one never tires of, order this Cochet set. No matter where you live, they will give you perfect satisfaction. The Cochet Roses are perfectly hardy in every part of the country, even where the winters are most severe, with slight protection. In the more temperate sections and in the South they thrive vigorously and bloom most lavishly all summer long, growing into great, strong, lusty bushes which increase in beauty with the passing years.

Six Superb New Hardy Everblooming Varieties

Price of Cochet Roses, one-year-old plants, 15 cents each; set of six for 75 cents; two-year-old plants, 35 cents each; set of six for \$1.75.

White Maman Cochet

A splendid Rose; has all the good qualities of Maman Cochet. Like some other white Roses, this variety, especially in the autumn, shows pink markings on the outside petals when the flower is in bud. When open the blooms are pure white and entrancingly lovely, large, fragrant, hardy and freely produced.

Crimson Maman Cochet

(*Etoile de France*.)

This well known Rose we have named descriptively Crimson Maman Cochet, because of its vigor of growth, stiffness of stem, heaviness of foliage, freedom of bloom, and hardiness. Bears masses of full, deep-formed flowers singly, on long, substantial stems. The color is a new and clear shade of red or crimson-velvet, brightening in center; of exquisite fragrance. One of the best and sweetest Hardy Hybrid Tea Roses of its color.

Red Maman Cochet

(*Helen Gould*.)

This is a Rose that will grow and give satisfaction in almost any soil or situation. It produces its splendid flowers in amazing profusion, on long, strong shoots. For vigor and freedom of bloom, thousands of growers regard this Rose as better than American Beauty, and without a peer. The flowers are very full, perfectly double; buds long and pointed. Color is a warm, rosy crimson, hardy everywhere. The exquisite fragrance, beauty of form and hardiness of nature make it ever popular.

Pink Maman Cochet

This superb Rose is well known as a queen among Roses, one of the best and most beautiful varieties ever grown, and quite hardy. The flowers are of enormous size, very full and of great depth and substance. Color, rich coral-pink, elegantly shaded with rosy crimson; has broad, thick, shell-like petals and makes superb long-pointed buds; immense bloomer, and flowers the whole season. Deliciously sweet and a hardy, vigorous grower. It ranks among the very finest hardy everblooming Roses.

Yellow Maman Cochet

We continue to regard this grand kind as absolutely the best, everblooming yellow Rose. It is ideal for open ground culture—a typical Cochet Rose, with gracefully molded buds, flowers magnificent when open, on stiff, strong stems. This kind is identical in every way with Pink and White Cochet, except the color of the flower, which is deep sulphur-yellow.

Blush Maman Cochet

(*Wm. R. Smith*.)

This magnificent variety is an American-raised, pedigree seedling. It inherits hardiness, constitution, fine habit, grand foliage and superb flowers. Where there are so many good qualities it is difficult to emphasize the leading one, but in this variety we would name its ability to resist disease. The color is a deep ivory-white overlaid with a good, bright shade of pink. As a summer Rose it ranks with the best.

Special Offer One each of Pink, White, Red, Yellow, Blush and Crimson Cochet, strong plants, for 75 cents; two of each, 12 in all, \$1.25. Two-year-old plants, one of each, 6 in all, \$1.75, by express.

IN EXCELLENT CONDITION AND ALL DOING FINE.

I received the order for thirty-six Roses and Fern some time ago. They are in excellent condition and are doing fine. I am exceedingly well pleased with my former order and will say they were the nicest plants that I have yet received.

J. M. S., Wellington, Texas.

MRS. DAVID JARDINE

A Wondrous, Hardy, Brilliant, Pink Bush Rose.

An exquisite new Hybrid Tea of a shade of brilliant pink not equaled by any other Rose. The color varies from a deep shade in the center to an exquisite salmon tint on the outer petals, with a peculiar soft, pastel effect. Its petals exhale a fragrance only to be compared to the famous Attar of Roses. The lasting quality of the flowers when cut is marvelous. They have been known to keep in perfect condition more than a week in water. A wonderfully vigorous grower, absolutely hardy everywhere, bearing its flowers in great profusion all summer. Price, one-year, 20c each; two-year, 50c each.

Oliva

A seedling of Gen. McArthur and Helen Gould. Oliva shows the rapid, strong growing and free blooming qualities of McArthur, while in shape of flower and color it strongly resembles Helen Gould. Buds are nicely pointed—like La France—and very fully double. Deep rose color, one of the finest in cultivation. Price, 20 cents each; two-year-old plants, 40 cents each.

President Carnot

It is a Rose of the largest size, beautiful both in bud and open flower. The buds come on long, stiff stems, in clusters of from six to twelve. Each individual flower stands out distinct on its stem. No crowding as in the case of so many Roses that bloom in clusters. The color is distinct and novel, a lovely fawn, shading to pearl. It often measures five to six inches in diameter. We have no hesitation in saying that this charming Rose will become as popular as La France, as it has all the good qualities of that Rose, and at the same time is so distinct that it attracts immediate attention. It is, indeed, a wonderful Rose—one that everybody can grow and bloom. Price, fine young, strong plants, 15 cents each; fine two-year-old plants, 40 cents each.

Three Soupert Roses

Price, one-year-old, 10c each; two-year-old, 30c each.

Gentlemen: Enclosed please find picture of the Kaiserin Augusta Victoria Rose, as it grows in my front yard. It is the admiration of nearly every passer by. Most of my Roses thrive wonderfully well, and most of them have come from your greenhouses. It is generally conceded that my yard takes the blue ribbon of the town.

Very truly,
MRS. H. P. P., Atlanta, Texas.

CHRYSANTHEMUMS WIN PRIZES.

Last year my wife ordered from you a white Chrysanthemum, listed in your catalogue as Glacier. The plant developed five of the most noble flowers I have ever seen. It won us three firsts at our flower show last year, and was admired by everyone.

H. R. B., Sweetwater, Texas.

Sunburst

LAURENT CARLE

An extremely vigorous grower of erect branching habit and fine dark green foliage; long buds borne on long stems, opening into large flowers of perfect form, just full enough to open freely; color, brilliant velvety carmine; a very promising variety. Price, 20 cents each; two-year-old plants, 50 cents each.

Hadley

In the Hadley we have a Rose that possesses a rich and lasting crimson color, coupled with vigor of growth, robust constitution, and free blooming habit. It will be welcomed alike by the grower who forces Roses under glass for cut flowers and the one who plants outdoors for summer flowers. It is a development of a strain of red Roses, including Liberty, General McArthur and Richmond. The color is magnificent, rich velvety-crimson, retaining its brilliancy throughout the season. The fragrance is delightful and refreshing. The flowers are borne on long stems and keep in good condition a long time when cut. The plants I ordered a few weeks ago came in good shape, and I am well pleased with them. I am giving you a lot of free advertising in my neighborhood. Every one who has seen my plants is carried away with them, especially the Roses.

MRS. W. H. N., Shreveport, La.

MOLLIE SHARMAN CRAWFORD

New White Ever-Blooming Rose.

This fine variety is destined to achieve the greatest distinction as a garden Rose. The flowers are splendid, of the largest size, grandly formed. They are snow-white, and of splendid texture. It is of admirable habit, fast-growing and free-branching; foliage dark and heavy, forming a good background for the snow-white flowers. Stems strong, holding the flowers erect. It blooms very freely and is delightfully fragrant. Price, 15 cents each; two-year-old plants, 40 cents each.

Blumenschmidt

This is undoubtedly the best Pure Yellow Rose for garden planting yet introduced; color is clear bright golden yellow; the plant is a strong, robust grower and very hardy; makes beautiful buds and is very double and sweet, and one of the very best. A sport from Mademoiselle Franciska Kruger. We believe it to be the only good yellow bedding Rose up to date. You had better try some of this, as unquestionably it has a great future. Price, 15 cents each; two-year-old plants, 30 cents each.

Mlle. Franciska Kruger

Price, one-year-old plants, 15 cents each; two-year-old plants, 30 cents each.

Five Royal Roses

(See Opposite Page.)

Reproduced from Actual Photograph---Size Much Reduced

Helen Taft

A most charming and decidedly beautiful Rose, which attracted the attention of all visitors to our Rose gardens during the past summer because of its marvelous free-blooming qualities. The blooms are of good size; the color is a rich cerise-pink. Will become as famous as a bedding Rose as is the variety President Taft. Growth very strong. Keep your eye on this variety. Price, one-year-old plants, 20 cents each; two-year-old plants, 50 cents each.

Hoosier Beauty

A grand new Rose and one that will have many admirers. The flowers are a glowing crimson with darker shadings that makes its beauty indescribable. It is very fragrant and the flowers are produced on long, strong, stiff stems. The flowers have a texture like velvet. The Rose is very free flowering. The bush is remarkably vigorous and sturdy in growth, one somewhat of the character of the Hybrid Perpetuals. Price, strong one-year plants, 25 cents each; strong two-year plants, 60 cents each.

Alexander Hill Gray

New. Color is deep lemon-yellow which intensifies as the blooms develop; flowers large, of great substance and perfect formation; it has a high-pointed center from which the petals gracefully reflex. We have carefully tested this Rose, and find it the most satisfactory yellow variety recently introduced. We recommend it highly. Price, 15 cents each; two-year-old plants, 40 cents each.

Dora Hansen

"Coloring Almost Indescribable."

This beautiful Rose is one of the best new roses yet introduced. Its beauty and exquisite coloring is almost indescribable. The color is a soft satiny salmon rose; center fawn and outside petals are flushed red, tinted copper and yellow. The flowers are very full and double and bloom early and late. We recommend this rose very highly, both for garden purposes and for cut flowers. Price, strong, one-year-old plants, 20 cents each; two-year-old plants, 40 cents each.

Ophelia

The Most Beautiful Rose of the Century.

Ophelia is a fine grower, with big, bright foliage that shows at a glance that it is a variety that will hold its flowers well. It is long-stemmed, bushy and free branching, and a free producer of bloom. It is very fragrant and resembles Richmond in this respect. Color, clear, bright pink, suffused yellow. Price, strong one-year plants, 20 cents each; two-year, 60 cents each.

We will supply one each of the Five Royal Roses in one-year-old plants, for 85 cents; one each of these fine Roses in two-year-old plants, for \$1.75; or they can be purchased separately at prices named.

Bride and Bridesmaid Standard White and Pink Roses

Bridesmaid

The Favorite Pink Tea Rose.

More plants of this are cultivated by the amateur, and more cut bloom is sold by the flower dealer, than any pink Rose. The buds are of exquisite shape, solid and firm, and the stems are so long and stiff that no other Rose will compare with it in keeping qualities, after being cut. Price, one-year-old plants, 10 cents each; two-year-old plants, 35 cents each.

The Bride

A Standard White Rose of Exquisite Form and Color.

There is no other white Rose more satisfactory than The Bride. The buds and flowers are unusually large, well formed and deliciously perfumed. When planted in the open ground the flowers are sometimes found to be delicately tinted with pink, making it exceedingly attractive. Of strong and healthy growth; a profuse bloomer. Its blooms are of the most suitable form and quality for cut flowers. Price, one-year-old plants, 10 cents each; two-year-old plants, 35 cents each.

The Famous Killarney Roses

KILLARNEY BRILLIANT

Probably no Rose ever introduced gained public favor so quickly as the original Killarney, and which today, after being on the market for over sixteen years, is still the most popular Rose grown. We sell more of it than of any other one variety. Killarney Brilliant is a sport from the original Killarney, in which we have a Rose far more intense and rich in coloring, it being almost a crimson of a rich glowing shade, and in addition to its rich color it is also larger and more double than its parent. A truly magnificent Rose which we can endorse in every way. Price, one-year-old pot plants, 20 cents each; two-year-old plants, 50 cents each.

White Killarney

An offspring of the famous Pink Killarney. It is identical with it, except that the flowers are pure white. Price, 15 cents each, two-year-old plants, 40 cents each.

See opposite page for description and prices

Mr Aaron Ward

GERANIUMS BLOOMED INCESSANTLY.

The Geraniums I had from you last year were the most beautiful I ever saw. Such sturdy plants, and they bloomed incessantly.

MISS M. O., Trinity, Texas.

Vestal's Four Select Roses

(Shown on Opposite Page.)

Madame Segond Weber

One of the grandest novelties of recent years; everybody is talking about it, and the more one knows of this wonderful Rose the more he will talk about it, and, what is of real value, every bit of talk about Mme. Segond Weber is in praise of her. Rosy-salmon or flesh pink in color, of the general type and color of "My Maryland." The bud is long and pointed, opening into enormous blooms, which deepen its color until fully expanded, when it is as impressive as an "American Beauty." The texture of the Rose is very thick and heavy and the form of the petals peculiarly beautiful. A great garden Rose. Price, one-year-old plants, 15 cents each; two-year-old plants, 40 cents each.

Rena Robbins

A very strong grower, with splendid stems and immense globular flowers; color, white or lemon, with orange heart. We had hoped that this would prove a forcing variety, but it has developed, instead, fine bedding qualities, for which purpose we strongly recommend it. The bloom is of splendid size, and lovely, rounded form. Price, one-year-old plants, 20 cents each; two-year-old plants, 40 cents each.

We will supply one each of the Four Select Roses in one-year-old plants, for 50 cents; one each of these fine Roses in two-year-old plants for \$1.25; or they can be purchased separately at prices named.

My Maryland

Beautiful In Bud and Flower.

A Rose of delightful color, distinctive shape and superfine quality, which appeals to many on account of its name. In color it is an exquisite shade of pink, the buds and flowers being most beautifully formed and borne on long, stiff stems. The bush is extra strong, hardy and a most prodigious bloomer. Price, one-year-old plants, 15 cents each; two-year-old plants, 35 cents each.

Hector Mackenzie

Deep pink, changing to silvery crimson; flowers large and full, of perfect globular form; both free and fragrant. Strong and vigorous and very free branching. Price, 15 cents each; two-year-old plants, 35 cents each.

FRANCIS SCOTT KEY

The Ideal Garden Rose.

In describing this Rose we might say it is large and very large. Some of the flowers have as high as sixty petals and sometimes more, opening to a very high center. In color it is a most magnificent red. It is very easy to cultivate and requires little or no care. This makes an ideal Rose for your garden and is extremely showy when a number of these plants are massed together. Price, strong one-year-old plants, 30 cents each; two-year-old plants, 60 cents each.

Bessie Brown

A Grand Hardy Rose. Again we desire to call your attention to this magnificent Rose, which maintains itself as one of the best that has ever been introduced into this country. It has unsurpassed beauty of a totally distinct character, bearing large, full, deep and double flowers profusely in the open ground all through the summer. The color is almost pure white, though sometimes flushed with pink; petals large and of fine form. Price, one-year-old plants, 15 cents each; two-year-old plants, 35 cents each.

Mrs. Aaron Ward

This Rose is a real joy to the grower and absolutely distinct. One of the most delightful Roses of recent years, in a color that catches the eye at once. Coppery orange in the open bud, golden orange when partly developed, pinkish fawn of lovely shade when fully open, when it looks like a full fluffy rosette. No wonder everybody that sees it falls in love with it. Price, 15 cents for one-year-old plants; 35 cents for two-year-old.

Alice Roosevelt

An Improved Mme. Chatenay.

A rare and very beautiful Rose of novel and distinct color, rich pink or rose flushed with orange and fawn. Flowers large, well filled and very fragrant. A strong, healthy grower and free bloomer; quite hardy and fine for the yard or garden. Price, 15 cents each; two-year-old plants, 35 cents each.

Wellesley

This grand, hardy Everblooming Rose, a seedling of "Liberty" crossed with "Bridesmaid," retains the form of "Liberty" with the fullness of "Bridesmaid," and in color is a beautiful shade of pink, outside of the petals being bright and clear, with a silvery reverse. It is a vigorous, healthy grower, carrying the flowers on long, stiff stems. Remarkably free flowering and fine keeping qualities. Price, 15 cents each; two-year-old plants, 40 cents each.

Perle des Jardins

A Grand Old Favorite.

This magnificent Rose still holds its position as one of the most exquisite and beautiful of its color ever introduced, and the demand for it is constantly increasing as its great value becomes known. Color a beautiful shade of clear golden yellow, entirely distinct from any other variety; flowers large, full, globular form, with great depth. A strong, dwarf grower. Price, one-year-old plants, 10 cents each; two-year-old plants, 30 cents each.

Dear Sirs: We received the Chrysanthemums all O. K. They were in good shape. My pot plants that I bought from you are very pretty. Everybody that sees them asks where I got them.
Yours truly, MRS. W. H. C., Mineral Wells, Texas.

Etoile de France (Star of France)

Magnificent in Form and Coloring

Gorgeous, rich, velvety crimson; full, very large, double and cup-shaped Rose, with fragrance that is deliciously exquisite. Plants form strong, upright bushes, with splendid deep green foliage, and in the open ground it is particularly good, growing hardy and vigorous. As the weather grows cold toward fall the color becomes darker, until the flower is almost black, so deep and velvety are its crimson petals. It is pre-eminently the Rose for the masses. It is always in bloom from the earliest days of summer until November. There is no deep red Rose in our list we can recommend more highly. Price, one-year-old plants, 15 cents each; two-year-old plants, 40 cents each.

Etoile de France

Etoile de France, Jr.

A sport from Etoile de France. Of stronger growth than the parent and more upright; foliage heavy and liberal and handsome in color and appearance. Bloom, very large, deep and full and we have not as yet heard of a section where it did not open up well and prove highly successful. Color, very deep crimson, more velvety and lustrous than the parent. Unusually fragrant. Price, 15 cents each; large size, 40 cents each.

Madame Margottin

This large and perfectly double Rose is considered a great favorite. The color of the flowers, which are very fragrant, is dark citron-yellow, with apricot shading and red center; a strong grower and profuse bloomer. Price, one-year-old plants, 10 cents each; two-year-old plants, 35 cents each.

Senateur Mascurand

An amber yellow Hybrid Tea Rose, the center of the bloom resembling the color of the yolk of an egg, toning to high sulphur yellow. Large, full, globular blooms. A strong, healthy grower and very free bloomer. Blooms of large, perfect shape. This is a much better garden Rose than Mrs. Aaron Ward. Perfectly hardy. Price, one-year-old pot plants, 20 cents each; two-year-old plants, 50 cents each.

All living and doing nicely. I was very much pleased with the Roses I got from you in the Fall. The twelve I ordered and the two extra ones you sent are all living and doing nicely.
MRS. F. B.,
Ruston, La.

Mabel Drew

President Taft

It is without question the most remarkable of all pink Roses. It has a shining, intense deep pink color possessed by no other Rose. It is a fine grower, free bloomer, good size and form, fragrant, and in a class by itself as to color. Mr. Frank Good, who is probably familiar with more Roses than any man in America, says: "Talk all you want to about the Rose President Taft, and then you will not say enough." Price, one-year-old plants, 20 cents each; two-year-old plants, 50 cents each.

New Hardy Ever-Blooming Rose

MABEL DREW

A truly magnificent Rose, superb in every respect. It is exquisitely shaped, with smooth, circular petals of great substance, arranged in perfect symmetry. The blooms are large and full, carried on strong and erect flower stalks. The color is a deep cream in the young state, passing to intense canary-yellow in the center as the flower develops. It is a Hybrid Tea Rose with a deliciously refreshing perfume. The flowers are produced continuously and in great profusion. A vigorous grower with rich cedar-green foliage. Price, 20 cents each; two-year-old plants, 50 cents each.

I am very much pleased with the beautiful plants you sent me, all of them being fine and healthy, and you were generous with extras, for which I thank you. I am quite sure you may expect another order this Fall.
MRS. J. S. J., Pine Bluff, Ark.

Jonkheer J. L. Mock—Giant Pink Rose.

JONKHEER J. L. MOCK

A Hybrid Tea called the Giant Pink from Holland. Of distinctive merit, being an extremely strong grower, one of the strongest of the Hybrid Tea class, blooming as it does with the greatest freedom, the buds carried on long, stiff, erect stems, of the very largest size imaginable to obtain in a Rose bloom and still retain its perfect formation. Very fragrant. Color, clear imperial pink on the order of the La France. This Rose has produced a sensation wherever grown. Price, one-year-old plants, 15 cents each; two-year-old plants, 40 cents each.

Marie Guillot

The Queen of White Roses.

We recommend it as one of the most reliable white Tea Roses in cultivation, especially for outdoor culture. The color is pure white, sometimes faintly tinged pale yellow. The flowers are beautifully made, very large, full and double; the buds are very pretty, of sweet fragrance. Anyone who has not seen this splendid variety growing at its best in the open ground can not conceive of the lovely beauty of its large, bold, handsome flowers. Price, 15 cents each; two-year-old plants, 30 cents each.

Safrano

Valued very highly for its beautiful buds and handsome flowers. The color is a bright apricot-yellow, passing to orange and fawn, sometimes tinted with rose. A splendid old-time Rose that has never been replaced by any newcomer of its class or color. It is a variety especially adapted to outdoor planting; vigorous, healthy; blooms all summer. Price, 10 cents each; two-year-old plants, 35 cents each.

WAS WELL PLEASED.

I received my plants and was so well pleased with them.

MRS. L. R., Wagoner, Okla.

Wm. R. Smith

NEW ROSE WM. R. SMITH

A Vigorous, Healthy Grower, Excellent in Quality and Beautiful in Bloom.

Whether you live East, West, North or South, whether you wish one Rose or 1,000, here is a Rose which has our unqualified endorsement. It will thrive abundantly in almost any reasonable location. The flowers are large, full and double, and most exquisitely formed. The petals are so firm they look like wax, softly curled, colored cream with flesh tint tips, buff yellow base and the center a heart of pink. Perfect buds. The flowers are borne on long, strong stems, just right for making bouquets. Fragrance is delightful. You will admire the foliage, too, deep green leaves on red stems and the new growth of rich garnet; the plant will grow for you vigorously, is among the hardiest in this class and blooms abundantly. Price, one-year-old plants, 15 cents each; two-year-old plants, 35 cents each.

The Faultless Yellow Rose Marie Van Houtte

It grows vigorously, blooms profusely, and is most deliciously scented. Price, 15 cents each; large two-year-old plants, 30 cents each.

Freiherr Von Marshall

Wonderful Strong Growing and Hardy.

As an outdoor Rose it has no superior. It has wonderfully beautiful foliage and produces large, full, beautiful shaped flowers, which are borne in profusion all through the season. Magnificent crimson-scarlet Hybrid Tea Rose with long and pointed buds; deliciously fragrant. Wonderfully strong growing and hardy. Enclosed find order for Rose and Strawberry plants, which I hope you will send just as soon as possible, as I am anxious to get them in the ground. I took first prize last Fall for greatest number of varieties of Chrysanthemums and first for largest bloom, many of them being over six inches across. I always remember you to all my friends and think many of them have sent you orders. Truly yours, MRS. C. E. H. Guthrie, Okla.

The Best White Rose for the Garden

KAISERIN AUGUSTA VICTORIA

A Superb, Hardy White Rose.

This marvelous Rose has had many rivals for the place it still retains as the greatest white Rose in existence. Strong, sturdy grower, flowering with the utmost freedom. It holds first place as the most popular of white Roses for general planting. From early spring until late fall its glorious full-double flowers in all their perfection are produced continuously on long, stiff, erect stems; color delicate creamy-white, with a delicious magnolia-like fragrance, exquisite buds, absolutely hardy. Price, one-year-old plants, 15 cents each; two-year-old plants, 35 cents each.

Madame Jenny Gillemot

The Yellow Kalserin.

Buds long and pointed, deep saffron yellow, opening canary with dark golden shadings; blooms large, petals immense; opens freely; a fine upright grower of branching habit. Exquisitely beautiful; very large in size; bud very long and pointed. Price, one-year-old plants, 20 cents each; two-year-old plants, 50 cents each.

Madame Jules Grolez

Red Kalserin Augusta Victoria.

One of the very best of the new Roses, and one that has so many good qualities that we are quite certain it will find a place in the garden of every flower lover. It has been thoroughly tested by us and we have formed such a high opinion of it that, this year, we have grown an unusually large stock in order to give the Rose the widest possible distribution. Mad. Jules Grolez is an exceedingly free-blooming variety, with very large, finely formed flowers. The color is a distinct and charming shade of cherry-red. The fine form and attractive shape of the flowers makes them excellent for cutting. Like Kalserin Augusta Victoria, Mad. Jules Grolez is a Rose of great value for open-ground culture. It is a remarkably strong growing variety, as hardy as the Hybrid Perpetuals, free-flowering and in every way excellent. Price, one-year-old plants, 15 cents each; two-year-old plants, 35 cents each.

Miss Alice de Rothschild

In color a rich, deep citron-yellow, which intensifies as the bloom expands. The

Kaiserin Augusta Victoria

flowers are very large, full and of perfect form, with high pointed center; the petals charmingly reflex. Growth is vigorous, erect and free, continuous in blooming, deliciously fragrant; a superb Rose in every respect. 20 cents each; two-year plants, 50 cents each.

Mad. Melaine Soupert

The strong vigorous plants form symmetrical bushes, with an abundance of heavy, dark foliage, and the superb, large globular flowers are borne on stiff, erect stems. The form is distinct and elegant, and the fragrance delicious. Color golden yellow suffused with faint shades of pink. Price, one-year-old pot plants, 20 cents each; two-year-old plants, 50 cents each.

Mme. Constant Soupert

This is one of the most valuable Roses that has been sent out in recent years. The growth is vigorous and the flowers large and very full, perfect form, color lasting a long time in perfection, citron-yellow shaded with rosy peach; plump, pointed buds of great size. The parentage, Maman Cochet and Marechal Niel, a sufficient guarantee of royal blood. Price, strong pot-grown plants, 20 cents each; two-year-old plants, 50 cents each.

LADY ALICE STANLEY

"The Most Popular Garden Rose."

This, we predict, will become very popular as a garden Rose. The petals are shell-shaped, forming a perfect flower; the color on outside of petals is a deep coral-rose; inside, delicate flesh, often flushed and suffused with bright flesh. Remarkably attractive, without doubt a magnificent Rose. Price, 15 cents; two-year-old plants, 35 cents.

Gentlemen: I wish to tell you that my order of bulbs arrived safely and think them quite fine, also to thank you for the extra Fern and Chrysanthemums. My bulbs each year are admired by everyone, and 'tis through seeing my fine flowers that you have gotten a few orders this year. I am telling you this, not for self glory, but simply because I appreciate your fine flowers enough to display them to the best advantage to make my home beautiful and attractive. Yours very truly,

MRS. T. K., Bokchito, Okla.

GENERAL McARTHUR

One of the Very Best Red Bedding Roses.

General McArthur is as fragrant as a rose can be; has good sized flowers and blooms continuously. The bud, when first opening, is the brightest crimson-scarlet and the flower retains this perfect coloring until it drops its petals. Blooms continuously the whole season through and gives fine stems for cutting. Its habit of growth is remarkably good, making strong, shapely plants that may be depended on for large flower shoots. A great favorite. Price, one-year-old plants, 15 cents each; two-year-old plants, 40 cents each.

Lady Hillingdon

It has long willowy stems that are in no sense weak, as the buds are held upright; has a long slender pointed bud of brilliant deep golden-yellow, and a striking peculiarity of this Rose was that each day the golden-yellow color becomes deeper yellow and more intense, unlike all other yellow Roses of which we are familiar, as invariably the tendency after being cut is to get lighter in color. Price, one-year-old plants, 15 cents each; two-year-old plants, 40 cents each.

F. R. Patzer

A most beautiful and distinct Rose of very free flowering character. The blooms are produced with great freedom on stiff stems, and are of large size and substance. The color is creamy-buff, back of petals delicate warm pink; as the petals reflex the color becomes light orange-pink, forming a most charming combination. Valuable for garden culture. Price, one-year-old plants; 15 cents each; two-year-old plants, 40 cents each.

Miss Mildred Vestal

of a good Rose. Vigorous grower; free bloomer. The blooms are of the largest size; the color a rich ruby-red, and of delicious fragrance. Price, one-year-old plants, 15 cents each; two-year-old plants, 40 cents each.

General McArthur

MISS MILDRED VESTAL

This superb new Rose is a result of a cross fertilization between "Rhea Reid," that grand red bedding Rose, and "Richmond," the greatest of all red forcing Roses, which insures in their offspring every point of excellence. It has magnificent large foliage, free from disease of all kinds, and is a tremendous grower—one of the best in all our list. The glory of the plant, however, is in the immense deep double flower of a new and clear shade of crimson scarlet. Price, one-year-old plants, 15 cents each; two-year-old plants, 35 cents each.

Lady Ursula

Color a most beautiful shade of flesh-pink, of great substance and good form; petals large, circular and delicately perfumed. A grand grower, producing its round, full blooms in wonderful profusion. Price, one-year-old plants, 15 cents each; two-year-old plants, 40 cents each.

Marie Delesalle

As free in growth as Teplitz, flowering continuously; buds long and elegant, opening into lovely blooms of fine form and large petals; color bright deep cerise. A decidedly free bedding Rose. Price, one-year-old plants, 15 cents each; two-year-old plants, 35 cents each.

Madame Valere Beaumez

Cream, yellow and orange are the colors in this queenly Rose. All the tints exquisitely beautiful, form very full and nicely rounded; a strong grower. We feel sure that this Rose will rank in the dozen best bedders. Price, one-year-old plants, 20 cents each; two-year-old plants, 50 cents each.

Eugene Boullet

This will become a standard variety. It has all the earmarks of a good Rose. Vigorous grower; free bloomer. The blooms are of the largest size; the color a rich ruby-red, and of delicious fragrance. Price, one-year-old plants, 15 cents each; two-year-old plants, 40 cents each.

VERY GENEROUS AND EXTRAS WERE JUST WHAT WAS WANTED.

I received my order today and sure was pleased with it, in fact so much so that I will forget the delay in sending them. Everything is in splendid shape and the extras are just what I wanted. You are very generous and I will be a regular customer.

H. A. C., Texarkana, Texas.

Edward Mawley

EDWARD MAWLEY

We have no hesitation in stating that this is the finest of all dark crimson Roses, a true perpetual flowering Hybrid Tea, and the most beautiful variety the Rose world has yet seen. The grand novelty has been very aptly named Edward Mawley, in honor of one of the best loved of British rosarians. It is an enormous, big-petaled Rose, much larger than

Malanie Soupert; a Rose it resembles in form, but of the beautiful rich color of a Louis Van Houtte, only with a more velvety shading upon the inside of its petals. Price, 15 cents each; two-year-old plants, 35 cents each.

Etoile De Lyon

This magnificent Tea Rose is a rich golden yellow; a strong, healthy and vigorous grower, immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full, excellent substance, very sweet. Surely one of the best and most beautiful yellow Tea Roses for general planting ever introduced. Remarkably hardy, both as to heat and cold; frequently standing the winters here uninjured in open ground without protection, and blooming nicely all through the hottest part of the summer. Price, 15 cents each; large two-year-old plants, 30 cents each.

Souvenir De Pierre Notting

Marvelously beautiful flowers of the Maman Cochet type, very large and well filled, opening beautiful clear apricot yellow tinged with golden, mixed with orange yellow, edges of petals shaded carmine-rose. Truly a gorgeous effect. The bush is strong and upright in growth, with heavy canes, and bears a great profusion of these magnificent Roses all summer long. It can always be depended upon for a supply of cut flowers. Price, one-year-old plants, 15 cents each; two-year-old plants, 35 cents each.

Mary Countess of Ilchester

Lady Battersea

This variety has long oval buds, sharply pointed, very striking in form; the color is bright cherry crimson; the stems are stiff and extremely long for a red Rose; a vigorous grower; not very full, but an unusually showy variety; the only red Rose approaching Nipheta in form; color, brilliant and unusual. Price, 10 cents each; large two-year-old plants, 35 cents each.

Cornelia Cook

The buds are most beautiful, of immense size, and are borne up high on massive stems, and with their round, full, heavy form, carry an air of grace and dignity quite unusual. The flowers are the clearest, snowiest white, and are arranged in the most faultless and symmetrical manner. Cornelia Cook has the largest bud of any white Rose. Price, 10 cents each; large two-year-old plants, 40 cents each.

MARY COUNTESS OF ILCHESTER

In the opinion of many expert rosarians this must be classed as one of the finest novelties. Mr. Roger Murphy, who has worked with Roses for the past forty years, says: "This Rose has come to stay. After trying out all the novelties of the past five years, I place the Countess Mary first." The color is unique and distinct, being a warm crimson-carmine, a shade difficult to describe; of great size, with large, smooth, circular petals, deliciously scented. Simply grand. Price, one-year-old plants, 15 cents each; two-year-old plants, 40 cents each.

Dear Sir: Please accept my sincerest thanks for the Roses which you sent me. They arrived in splendid condition. I have shown them to a number of my friends and expect you will receive several nice orders from them this Fall. I am, respectfully,
MRS. V. H., Altus, Ark.

Any 15 Roses--A Complete Rose Garden--for \$1.00

It does not follow that because the following Hardy Tea Roses for the home garden are relegated merely to a line of description that they are in any way inferior to others given more extended notice. These are the tried and true favorites, so well known and beloved of all who cherish Roses—and that means everybody. The limitations of this book will not permit us to extol their virtues, as they deserve, for many are worthy of a full page of description.

ANTOINE RIVOIRE. Color rosy flesh, on a yellow ground, shaded with a border of carmine.

AGRIPPINA. Free bloomer; color bright red.

Everblooming Climbing Roses for the South

These are the Roses so necessary for the home, giving to it, no matter how humble or pretentious, a touch of beauty not to be had by any other form of adornment. They have also a most useful side, in that they give most delightful and refreshing shade when used on the porch, veranda or pergola. They are used very extensively in covering unsightly spots in the grounds, for screening outbuildings and for trailing down over embankments.

MARECHAL NIEL

The Famous Rose.

The fame of the superb yellow Rose Marechal Niel, with its large, deep, golden-yellow flowers, is world-wide. It is almost universally held to be the finest Rose for indoors or outdoors, where the climate admits of its cultivation. Its magnificent golden-yellow flowers are almost massive in dimensions, and reports from growers tell of single plants showing one to two thousand blooms at a time. It is of strong growth and beautiful foliage. It is grand in petal, shape, color, fragrance, lasting qualities and size, an extremely free bloomer and flowers throughout the season. Contrary to many Roses, which lose their color after opening, Marechal Niel decidedly improves and takes a deeper yellow after being kept for a day or two. The tea fragrance is strongly present in this Rose. It is a variety which practically stands by itself. Price, 15 cents each; stronger plants, 25 cents; two-year-old plants, 50 and 75 cents.

Climbing White Maman Cochet

The Sensational, New, Hardy, Everblooming, White Climbing Rose, Long Sought For.

Just as the old favorite White Cochet is one of the very best of all White Tea Roses, so we believe this new White Climbing Tea will jump into the widest popularity. It blooms continually all summer, bearing the greatest profusion of perfect White Cochet Roses, and the plant grows with wondrous strength and vigor. This is without doubt one of the finest white everblooming Climbing Roses ever introduced, and can be procured from very few concerns. Its scarcity makes it valuable, and it appeals strongly to those who like to have something different from their neighbors. Price, 20 cents each; two-year-old plants, 50 cents each.

Gainesborough

This is a Grand Climbing Rose. We wish all our customers could see its great beauty.

For a hardy everblooming climber it has no equal. For beauty and size we place this variety at the head of the Hybrid Teas. Its delicate colors are hard to describe, being delicately tinted flesh, almost white, and lustrous as satin. When in full bloom it resembles a large, fine, white, fluffy Peony, but without a suggestion of stiffness, often measuring eight to nine inches in diameter. Be sure and try this grand Rose; you will meet with no disappointment. Price, 15 cents each; two-year-old plants, 50 cents each.

Reine Marie Henriette

A strong growing and climbing Rose, making a grand pillar Rose in the South. Flowers full and well formed; rich, brilliant crimson. A grand Rose and a fine companion to Marechal Niel. Try it. Price, 15 cents each; large size, 35 cents.

Climbing Devonensis

A sport from Devonensis, from which it differs only in climbing habit of growth. It is fully as productive as the old sort, and being more vigorous, is justly a grand Rose. Color, white, tinged with blush; very sweet. Price, 10 cents each; two-year-old plants, 40 cents each.

President Cleveland

(Climbing Marie Guillot.) It is one of the most rapid and vigorous climbing white Roses we have ever seen. It blooms continuously throughout the season. The flowers are magnificently made, extra large, deep and double. The buds are beautiful, and fragrance delightful. Price, 10 cents each; two-year-old plants, 30 cents each.

Mary Washington

Flowers medium size, pure white, perfectly double to center, sweet and blooms all summer; fragrance tinged with old time musky flavor so much admired in olden times. Price, 10 cents each; large size, 25 cents each.

The Euonymous Japonica hedge plants ordered from you some weeks ago arrived in excellent condition and we were delighted with them. They were much larger plants than I expected at the very low price.
Yours sincerely,
MRS. R. N. K., Fort Worth, Tex.

Everblooming Climbing Roses

CLIMBING WOOTTON

To our mind this great Rose is to be classed with Mrs. Robert Peary and other great climbing varieties for these reasons: It is perfectly hardy, has no weak spots, grows with wonderful vigor, blooms continuously throughout the growing season, produces flowers that are nothing less than superb, both in beauty and in fragrance. If there is such a thing as having one Rose more beautiful than another, we think this variety may be entitled to this distinction. It is a strong, rampant climber, growing in one season to a height of from ten to fifteen feet, with large, heavy, insect-proof foliage. It produces in most wonderful profusion its superbly-formed flowers, which are bright magenta-red, passing to violet crimson, richly shaded. The flowers are large, full and regular, with thick, leathery petals, and deliciously scented. Make beautiful buds. Price, 15 cents each; large size, 40 cents each.

Last Spring I ordered three one-year-old Roses from you and they were equal in size if not larger than some two-year-old varieties I have bought from other companies, and yours started better. Respectfully, MRS. A. D., Mickey, Texas.

Climbing Malmaison

This Rose is an exact counterpart of Malmaison in foliage and flower, but is a rampant climber. You cannot tell the flower or foliage from that old-time, tried and true variety, Malmaison. It will be a welcome addition wherever climbing Roses are planted. Just imagine a Rose climbing over the side of your house or enclosing your veranda in its luxuriant foliage, bearing flesh-colored Roses of immense size, and double to center. Flowers of graceful form, unsurpassed beauty, and deliciously fragrant. Price, 15 cents each; large size plants, 30 cents each.

Climbing Killarney

Climbing Killarney is a sport of the now popular cut flower Rose Killarney, and excels any variety of its class and color ever introduced. Proved immensely popular last year. Climbing Killarney makes a strong growth, with a beautiful deep bronzy-green foliage, bearing its long, pointed buds and flowers on heavy shoots and canes. The color is an exquisite shade of brilliant pink. Flowers immense in size, with petals of great substance and delightful fragrance. A great new Rose. Entrancingly beautiful—a wonderful flower. Price, 20 cents each; two-year-old plants, 45 cents each.

W. Allen Richardson

The coloring of this Rose is simply exquisite. The base and back of petals are a bright yellow, the center highly colored with glowing copper and rose; first class climber. We highly recommend it. Price, 10 cents each; large plants, 30 cents each.

Climbing Meteor

A superb everblooming climbing Rose. A sport from Meteor, famous for its magnificent flowers. True climbing habit, attaining a height of 10 to 15 feet in a single season. Free, persistent bloomer, with magnificently formed buds and flowers. Dark, velvety crimson, the equal of any Rose in cultivation. Hardy, with protection, and will give absolute satisfaction. Price, 15 cents each; two-year-old plants, 40 cents each.

Climbing Clothilde Soupert

Hardy, Everblooming Climbing Rose.

Quick and abundant bloomer and healthy, vigorous growth. The flowers are two and one-half to three inches across, and perfectly double, rich creamy-white, sometimes tinted with blush and borne in immense profusion, the whole growing season from June to November; handsome, glossy green foliage, not subject to insects or disease. Price, 15 cents each; two-year-old plants, 35 cents each.

Cloth of Gold

(Chromatella). Clear, bright yellow, very full and double; beautifully formed buds and flowers; very fragrant. Price, one-year, 15 cents, postpaid; two-year, 40 cents, by express.

Climbing Queen's Scarlet

Climbing China. A genuine Queen's Scarlet with a vigorous climbing habit; will make a fine Rose. Color, velvety crimson. Price, 15 cents each; two-year-old plants, 50 cents each.

Climbing Wootton

Climbing Richmond

The beautiful, hardy, everblooming Pillar Rose. A fine, handsome bush, 3 to 6 feet high, with glossy foliage, and blooms constantly from early June till freezing weather. One of the most beautiful. Pure, rich velvety red fully equal to General Jacqueminot in color and equally large and beautiful. Price, 20 cents each; two-year-old plants, 50 cents each.

Lamarque

A fine climber for greenhouse and conservatories; pale canary yellow, almost white; beautiful buds; large, full flowers, very double and sweet. Price, 15c each; large plants, 30c each.

MADE A LASTING CUSTOMER.

Received the box of flowers O. K. They are beautiful and so many more than I expected. Your beautiful flowers and promptness in filling my order have made me a lasting customer.

MRS. G. E. S., Warren, Ark.

Everblooming Climbing Roses

Climbing American Beauty

Here we have the latest triumph in American Rose growing, the true Climbing American Beauty in all its promise and glory, the realized dream of every Rose grower. Just the same as American Beauty practically. Large flowers, each produced on separate stems, vivid rosy-crimson in color, with delicious fragrance. Borne in the greatest profusion throughout the growing season. Foliage tough and leathery, deep, glossy green, sun and insect proof. The youngest plants attain a height of 10 to 15 feet in a single season. Hardy and as sturdy as an oak in all localities. Splendid in the South. For single specimens, trailing over verandas, for trellises, anywhere and everywhere, this Rose will give the greatest satisfaction. Words of description can hardly do justice to this magnificent Rose. Absolutely true to name, on its own roots. Strong one-year-old plants, 15 cents each; two-year-old plants, 30 cents each; larger size, 50 cents each.

MRS. ROBERT PEARY

A great, White, Hardy, Everblooming Climbing Rose (Or Climbing Kaiserin Augusta Victoria.)

The first white hardy everblooming climbing Rose. It is an offspring of that grand variety, the best pure white hardy everblooming Rose, Kaiserin Augusta Victoria. The flowers are something grand; they are the equal of the finest and most beautiful cut flower Roses; of splendid substance; extra large, full, deep and double, and are produced on long, stiff stems. Buds are long and pointed. In bud and flower it is truly beautiful; has a delicious fragrance—just like cherry blossoms. If you want a quick growing, hardy climber, sure-to-bloom Rose, one that will give you flowers this season, this is the only white variety that will do it. Price, 15 cents each; large size, 40 cents each.

Climbing Helen Gould

MRS. L. W. P., Wilmot, Ark.

Four Famous Rambler Roses

Four Colors---Pink, Red, White and Blush

Dorothy Perkins (Pink)

This beautiful new Rambler Rose is becoming even more popular than the original Crimson Rambler. And well it may, for it is indeed a finer pillar Rose than that famous variety. The growth of a single season is wonderful, its handsome, glossy green foliage being one of its strong points. The flowers, however, are its crowning beauty, being borne in immense clusters of fifteen to thirty, and possess great lasting qualities. Flowers a beautiful shell-pink, very double, with petals artistically crinkled. Remarkably pretty pointed buds. This Rose is extremely hardy and will withstand the coldest weather. We advise our friends to plant this variety where it can be allowed plenty of room, and it will give an account of itself. Price, one-year-old plants, 10 cents each; two-year-old plants, 35 cents each.

New Fiery-Red Rambler Rose EXCELSA

A splendid new Climbing Rose, remarkable in many ways, but particularly in the brilliant fiery-red or intense crimson-scarlet of the flowers. The intensely brilliant color is accentuated by the great masses of giant trusses produced on the plants, and furthermore by the contrast with the deep green glossy foliage. The flowers are very double; they are larger than any of the Rambler Roses and borne in trusses of thirty to forty on each; the body of the flower is brilliant in color, but toward the edges of the petals they light up with a wonderful scarlet-crimson. Price, one-year-old plants, 20 cents each; two-year-old plants, 50 cents each.

White Dorothy

A White Climbing Rose of Indescribable Charm and Vigorous Growth.

This wonderful Climbing Rose is so exquisitely beautiful that it is well worth all the prominence it can be given. It is a rampant grower and in a remarkably short time will cover a large trellis with its long, sturdy canes clothed with brilliant green, shining foliage of splendid texture and free from mildew or attacks of insects. The flowers are of a brilliant, glistening white and are borne in great trusses, completely covering the plant, until it resembles a snow drift. Price, one-year-old plants, 15 cents each; two-year-old plants, 35 cents each.

Dorothy Dennison, The Blush Dorothy Perkins

Flowers of a delicate cherry pink color, which fades to a soft white; deep green foliage. Vigorous grower, perfectly hardy. Will cover a large porch or trellis in an incredibly short time. One of the most charming of all climbers. Price, one-year-old plants, 15 cents each; two-year-old plants, 35 cents each.

Free-Flowering Hardy Climbers

Large-Flowering Types.

American Pillar

The flowers are single, of immense size, three and four inches across and very durable. They hang in immense clusters all along the branches and make a remarkable sight, a veritable sheet of bloom. The color is a dainty apple-blossom pink, while in the center of each flower is a cluster of bright yellow stamens. This Rose is as hardy as an oak tree, of very strong growth, soon covering any space allotted to it. The American Pillar is going to become as popular as the Crimson Rambler. If you want a novel and beautiful garden ornament, order this Rose. Price, one-year-old plants, 20 cents each; two-year-old plants, 50 cents each.

Silver Moon

The flowers run four and one-half inches and over in diameter, clear silver white in color, petals of great substance and beautifully cupped. The center is filled with bright yellow stamens, a very attractive feature. It is very floriferous, the plants literally covering themselves with great Clematis-like flowers. They are borne on strong stems, twelve to eighteen inches long, and are delicately fragrant. The foliage is large and abundant, bronzy-green, glossy and practically immune from mildew. Price, 20 cents each; two-year-old plants, 50 cents each.

Dr. W. Van Fleet

Dr. W. Van Fleet bears flowers which, when open, run four inches and over in diameter. The center is built high, petals beautifully undulated and cupped. The color is a remarkably delicate shade of flesh pink on the outer surface, deepening to rosy flesh in the center. The flowers are full and double, of delicate perfume, buds pointed, stems twelve to eighteen inches, and fine for cutting. The foliage is a peculiar shade of bronze green, large and glossy, with spines a bright bronze red. The variety is a vigorous grower, immune from mildew. Price, one-year-old plants, 20 cents each; two-year-old plants, 50 cents each.

Tausendschon or Thousand Beauties

A Grand Hardy Climbing Rose.

A beautiful, new climbing Rose which has leaped into popularity by its inherent merit and beauty. The name "Thousand Beauties" is very appropriate and refers particularly to the wonderful variety of colorings found on any one plant. The flowers are soft pink at first, but as they age the most beautiful shades of carmine-rose, cerise, blush and soft white with a gleam of light yellow, soft crimson and intermediate tints; a combination of charming coloring, which is bewildering. Price, 15 cents each; two-year-old plants, 35 cents each.

The roses I received from you this spring are now all blooming in fine shape.
C. W. J.,
Walnut
Ridge,
Ark.

Have quite a number of Vestal Roses and find them the healthiest and easiest to grow. I have about three dozen in all and every one bloomed last year.

MRS. C. B., Fordyce, Ark.

Dwarf Polyanthus Roses

Plant Baby Ramblers for Bright Edging

They Bloom Unceasingly.

These are entirely distinct from the larger flowered Roses and there is a place for both in every garden, being so hardy and adapted to so many uses. Masses of 25 or more together will be found to make a very effective planting.

Price of all Baby Ramblers listed on this page: One-year plants, 15 cents each, \$1.50 per dozen; two-year plants, 35 cents each, \$3.00 per dozen.

Geo. Elger

It produces great quantities of lovely little buds of golden yellow, opening into miniature symmetrical roses. Each bush is so loaded with bloom that they resemble a huge bouquet.

Crimson Baby Rambler

Still a favorite. The flowers are borne in clusters of 30 to 40, and the foliage is dark, glossy and profuse. A large bed in our grounds was constantly in bloom until November, even in the hottest weather.

Pink Baby Rambler

Orleans Rose.

The showiest and prettiest of the pink "Baby" Roses; this charming and dainty little variety is of beautifully rounded habit and is a huge bouquet of brilliant bloom, deep cerise, with showy center of pure white, florets not crowded, but of beautiful arrangement.

Baby Thousand Beauties

The plants are sturdy and bear immense trusses of flowers of a large size, which keep remarkably well after opening. We have found this to be a continuous and profuse bloomer and undoubtedly has a great future.

Vestal's White Baby Rambler

This is surely a beauty. It grows to a height of 15 to 20 inches, and produces double, pure white flowers in wonderful abundance. It has a fragrance similar to Hyacinths. Of free, compact growth and very attractive, a sheet of white and always in bloom.

Erna Teschendorff

The color of the flowers is the brightest red. The flowers are large and very double and are produced in constant succession throughout the whole season.

Bonnie Belle

Enormous trusses of dark cherry-red flowers. Unusually long buds for a Polyantha. Worthy of trial.

Baby Elegance

An elegant new "Baby Rose." Has single flowers of a beautiful lilac-rose color shading to Irish Elegance-yellow. Long stem and free bloomer.

Jessie

This new Baby Rambler is an ideal Rose for massing, bedding or for pot culture. The flowers, which are produced in huge clusters are of a bright cherry-crimson color which does not fade. Superb. The best of all the Baby Ramblers for pot culture.

Dewdrop

Cherry-red; lasts a long time, grows easy. A very double Rose.

Ellen Poulsen

Dark brilliant pink, large and full, sweetly scented. Vigorous, bushy habit, most floriferous. Very fine.

Mrs. Wm. Cutbush

Of dwarf growth, producing in constant profusion flowers of pale pink, borne in huge trusses throughout the entire summer and autumn.

Tree Baby Rambler

Budded on Rugosa stock in tree or standard shape with bushy two-year-old heads, which will flower beautifully during the summer and fall. Crimson Baby, 12 in. and 24 in. stem. Price, each, \$1.00.

Plant Baby Rambler for bright edging—they bloom unceasingly.

Gentlemen: Received flowers in perfect condition and am delighted with them. Shall always speak a good word for "The House of Vestal," and my pretty flowers will talk for you too.
Respectfully, Mrs. A. B., Forrest City, Ark.

Hardy Garden Lilies

The beauty of the Lilies appeals to everyone. We here list only those that every good garden really needs.

One of the most effective plants in cultivation for the flower border, or for planting out upon the lawn. Pompon Chrysanthemum Minta

Pompon Chrysanthemums

These beautiful small flowered varieties are again coming to the front, and are certain to become popular for outdoor bedding purposes. They are absolutely hardy, and produce an abundant, almost lavish, profusion of blooms, and the plants lend a coloration to the garden just at a time when other plants have been destroyed by frost. Frost does not materially affect the flowering. The collection embraces all the leading colors, and, with but a slight covering of leaves or coarse stable litter during the winter, will take care of themselves after once planted.

ACTO. Incurving, dahlia-like petals. Bright rose, with light reverse.

BABY MARGARET. Small and compact in form, with flowers twice as large as Baby, on longer stems. Pure white. Very useful and substantial.

CLORINDA. Semi-dwarf, producing erect sprays of an even shade of bronze.

DIANA. A fine pure white.

HELEN NEWBERRY. Two inches in diameter, high, rounded flowers of purest white, maturing Thanksgiving to Christmas, when most Pompons are gone.

To get best results and extra large flowers, the soil must be extremely rich—we use equal parts well rotted manure and soil. Price, 5 cents each; 50 cents for fifteen; \$2.50 per 100.

Moorpark Apricot.

Elberta Peaches

Royal Apricot.

One branch of the peach-growing business has been sadly neglected—the little home markets that dot this great country of ours by the tens of thousands. Everyone loves a luscious peach, and nearly all who own land can grow them if they will. And while we would be glad to see from one to a dozen peach trees in every family garden, we fully realize that that happy day is yet a long way off, and therefore there is a great money-making opening for commercial peach-growing in a small way in and around every center of population. The little home market orchard may have fifty, a hundred, two hundred or five hundred trees, depending on surrounding population, and should be planted with varieties suitable to climate, and covering the season from earliest to latest ripening kinds. One has little idea how many peaches can be sold to neighbors until they try. We know of many peach orchardists who annually sell \$500 to \$1,000 worth of peaches to the farmers within easy driving distance of the orchards, and this direct sale is nearly all profit; no freight or express charges to pay, no commissions on sales and no waste of any kind.

Price, 25 cents each; \$2.50 per dozen.

STRAWBERRIES

How About That Strawberry Bed?

Last year when strawberries were ripe you swore by all that was great and good that you wouldn't be another year without a strawberry bed. It was too late to set one then, though. Spring is the only time. So if you really want a strawberry bed, now is the time to get busy. The earlier the better. Any good ground will do. Don't worry about these long-winded directions about preparing the ground and so on. Just get the plants fresh and set them in just the same depth they grew before. Don't let the ground dry out or bake. Keep it well hoed. Don't let it crust over or a weed start. Don't worry about picking off runners or blossoms. If the plant is healthy it is a safe proposition to let it do as it pleases. No berries to speak of this year, but next year at least a quart to the plant with good luck and good care.

Price, postpaid, by mail, dozen, 35 cents; 50 for 75 cents; 100 for \$1.25. By express, not prepaid, 100 for \$1.00; 500 for \$3.00; 1,000 for \$5.00.

AROMA. A good grower and a reliable variety. Berries are of large size, rich in color, with smooth surface and prominent yellow seeds, and a high aromatic flavor. It ripens late and in many sections at the South is the best late variety.

KLONDIKE. This variety is noted for its large yields of beautiful berries, uniform in shape, rich blood-red in color and having a flavor that is neither sweet nor sour, but mildly delicious.

SENATOR DUNLAP. Many large growers pronounce this "the greatest all-round variety ever introduced." It is deservedly one of the most popular of all Strawberries. It is wonderfully productive. The fruits are very large and of handsome, regular shape and uniform size; the color is a rich, deep red, with glossy surface and prominent golden yellow seeds. The meat is a rich red, exceedingly juicy, sweet and delicious.

GANDY. One of the best late Strawberries. The fruits are uniformly large and perfect in form and firm. Color, bright crimson and as glossy as if varnished. It has a large, bright green calyx, which greatly adds to the beauty. This is one of the latest and best flavored berries we have. The quality is all that can be desired, giving out a most delicious aroma, suggestive of both Strawberries and Peaches. It ripens from late to very late.

EXCELSIOR. This variety is one of the very best extra earlies yet introduced, and is a vigorous, healthy grower—unusually productive for so early a sort—outyielding other standard earlies two to one, while the fruit averages large, is very handsome and firm.

The Everbearing Strawberries Have Made Good

There can be no possible doubt any longer about the Everbearing Strawberries. They have made good and then some. If you have been putting off planting them waiting for them to show whether they are a good thing or a fake, you don't need to wait any longer. They have proved the last three seasons that they will bear all summer every summer, from earlier than the others till the ground freezes in the fall. Ripe berries, green berries and blossoms, all the time. And the best berries you ever tasted, big, and red, and sweet, and juicy. Real strawberries. The two varieties we offer we consider the best. Price, doz., 35c; 25 for 75c; 50 for \$1.25; 100 for \$2.00 postpaid.

SUPERB. This is the most wonderful everbearing Strawberry ever produced. It outrivals its parents both in large size and wonderful productivity. Plants strong, healthy and deep rooters. The fruit is medium to large in size, very firm, uniform shape, bright red, and has native strawberry flavor.

PROGRESSIVE. This is the strongest growing plant of all the fall-bearing varieties we have seen. The plants are very large and heavily rooted, producing a phenomenal crop of medium to large fruits, of a dark red color both inside and out.

EARLY OZARK. A very promising new strawberry. It is it a cross between the popular varieties Aroma and Excelsior. The originator says "it is the largest extremely early berry ever introduced and as big as the late large fruiting sorts;" 15 berries of Early Ozark often fill a quart basket. The berries are almost round and bright red in color. The plant is a grand grower with healthy large foliage.

BEDDERWOOD. This is a very reliable early berry and is steadily increasing in popularity. In color it is red crimson, having a glossy surface. Size of berry medium, fine flavor; as a canning berry it is hard to beat.

ST. LOUIS. One of the largest and finest berries grown, and being a heavy yielder as well, steadily is winning its way to a prominent place in the confidence of Strawberry growers representing practically every section of the South. In shape the berry is conical and long, having an obtuse point. Color is dark, lustrous shade of crimson, studded with brilliant, golden seeds, all of which tend to make it one of handsomest berries.

TEXAS. A grand berry, one that comes very near being an ever-bearing berry. We have seen them make a second crop, six weeks or two months after all other fruit was gone, continuing to fruit for six weeks at a time, and this the second crop. You will need at least a hundred of them if you like late berries. Try them and see how they will do for you.

Brussels Sprouts

Pkt., 10 cts.; oz., 30 cts.; 1/4 lb., 80 cts.

This interesting plant bears a stalk perhaps two feet high, closely covered with little buds or sprouts, one to two inches in diameter which resemble tiny heads of cabbage. These are tender and delicious when creamed the same as cabbage.

Chinese or Celery Cabbage

This vegetable is called Pe-Tsai, or Cut Cabbage, by the Chinese gardeners, and is beginning to attract attention in America. It does not form a cabbage head, but when grown to its full size resembles the Cos Lettuce, and the outer leaves may be used during its growth. The flavor is mild, and it is used either as a salad or cooked. Pkt., 10 cts.

Corn Salad or Fetticus

A vegetable used as a salad. Sow the first opening of spring in rows one foot apart, and it is fit for use in six or eight weeks.

LARGE LEAVED. Pkt., 5 cts.; oz., 10 cts.; 1/4 lb., 25 cts.; lb., 75 cts.

KLONDYKE

EVERGREEN PICKLING. Generally admitted to possess every qualification required in a perfect pickling Cucumber. Exceptionally productive. One grower says it bears "four to one" compared with many standard sorts. It is a very strong grower, extra-early, and bears firm, crisp fruits, which are excellent for slicing also.

Cabbage Seed

Pkt., 10 cts.; oz., 20 cts.; 1/4 lb., 60 cts.; lb., \$2.00.

LARGE JERSEY or CHARLESTON WAKEFIELD. Has uniform heads much larger than Early Wakefield, and matures a few days later. Does as well on clay ground as on other soil. Very popular with Southern gardeners.

ALL HEAD EARLY. For uniformity, reliability of heading, size, earliness and quality it is very superior. Its heads grow compact and free from spreading leaves.

EARLY SUMMER. In size, form, solidity and earliness this is truly a model cabbage. It heads just after our July Wakefield.

EARLY SUCCESSION. A wonderful Cabbage for solidity, productiveness and fine large heads. Matures early, has handsome color and fine quality.

Pkt., 25 cts.; 1/4 oz., \$1.00; oz., \$3.50.

EARLY SNOWBALL. Produces large, handsome heads, measuring eight to ten inches across; pure snow white; close, compact and of the finest quality. Sow thick in drills, in rich ground, transplanting when four inches high, or sow in drills where the plants are to remain and thin to two or three feet apart in the row when of proper size. In the South sow from January to May, and August to October.

Cucumbers

Pkt., 5 cts.; oz., 10 cts.; 1/4 lb., 30 cts.

ARLINGTON WHITE SPINE. Beautiful in shape, color and of the finest quality. The fruit is long, cylindrical, dark green with very white, crisp and tender flesh of excellent flavor. In the United States the Arlington is used more, perhaps, than any other variety.

KLONDIKE. A very early strain of White Spine, with dark green skin which holds its color a long time. Fruit 6 to 7 inches long and produced in profusion. Quality unsurpassed.

CUMBERLAND. Is of the hardy, White Spine type. The pickles differ from all other hardy sorts in being thickly set with fine spines over almost the entire surface. During the whole period of growth the form is very straight and symmetrical, thus being as choice for slicing as for pickles.

The melons are large, oblong, with dark green skin and bright scarlet flesh; solid to the heart and of luscious flavor, ripening early.

FLORIDA FAVORITE WATERMELON. The flesh is a beautiful, clear crimson, extending to the rind. The rind is tough, making it an excellent shipper. They are quite well ribbed and covered with a fine grayish netting. The skin is a rich dark green, contrasting finely with the deep orange-salmon colored flesh, sweet and tender. The flesh is thick and firm, ripening close to the skin, leaving only a thin rind.

ROCKY FORD, or NETTED GEM. Oval-shaped; small and uniform; thick-meated; flesh light green in color and of uniformly fine, luscious flavor; skin ribbed and thickly netted; prolific.

"PAUL ROSE." The fruits are nearly round or slightly oval, ribbed and heavily netted; of a light green or faint golden hue when fully ripe. The flesh is thick, of a rich deep orange color, and ripens close down to the rind, with small seed cavity.

The melons are same size as "Rockyford," but specimens run more uniform as to size and shape, which is nearly round, and the skin is covered with a thick grayish netting, adding much to the appearance of the melon. The flesh is green, with slight golden tint next to the seed cavity, and the flavor is delicious, being remarkably sweet and juicy. 10c per pkt.; oz., 20c; $\frac{1}{4}$ lb., 50c.

Everything in the order was in good condition and I wish to thank you for the nice extras you sent me. I am just starting my garden, so any directions you could send me would be appreciated.

EXTRA-EARLY ALASKA. This fine pea has become a standard extra early market variety, and is the earliest of all blue Peas; grows about 30 inches tall; very uniform in maturing the crop; of excellent quality, and retains its desirable color after cooking. Our strain is especially fine.

EXTRA-EARLY GRADUS. Also called "Prosperity" Pea. This popular new large-podded wrinkled pea of finest quality matures pods only two or three days later than the small-podded round-seeded extra earlies. The vine has heavy stems with large light-green leaves, and grows three feet high. It produces uniformly large pods, measuring from four to four and a half inches in length, nearly round, and well filled with very large handsome peas of the finest flavor. The peas remain tender and sweet for some time after they are large enough to use.

NOTT'S EXCELSIOR. This is one of the standard high-grade Peas that have established themselves so firmly that many will take no other varieties for its season. Its quality is fine and for a

wrinkled Pea it is hardy and thoroughly reliable. It does not require staking and the pods ripen evenly, making it extremely valuable for home and market use.

THOMAS LAXTON. An early variety of large-podded Pea. The plant is a very hardy and strong grower, producing extra large size pods in abundance, and the quality is delicious. This variety will mature as early as many of the smooth extra early Peas; height 3 feet.

TELEPHONE. The favorite late variety. Extra early pods. This Pea has proved to be a most valuable introduction. Vine large, coarse leaves, height about 4 feet. The pods are very large and filled with immense Peas, which are largest of any. Tender, sweet and of splendid quality and flavor. Stock we offer has been selected with every care, and will give satisfaction to the most exacting grower.

PROLIFIC GIANT PODDED SUGAR PEAS. Excels all other Sugar Peas in size, productiveness and quality. Vines are about 30 inches in height. The pods are gigantic in size, broad, sweet and tender, extremely fleshy and equal to the best Snap Beans for cooking pods and all. This is a very decided improvement in Sugar Peas.

ADVANCER PEA. A reliable second early green wrinkled Pea, following the first earlies; it is of healthy, compact growth, about 2½ feet high, bearing in great abundance medium-sized pods, but compactly filled with dark green-colored, large wrinkled peas, so tender, sweet and finely flavored that this variety is often known as the Dwarf Champion.

CHELSEA PEA. It grows about 15 inches in height and is of compact, short-jointed habit, thus requiring no brushing or staking. The pods are remarkably handsome, being gracefully curved and much longer than any other early dwarf kind. They are well filled, each containing 8 to 10 good sized wrinkled Peas of exquisite quality, which, when cooked, are rich, sugary, and of marrow-like flavor.

EVERBEARING. A late variety growing 2 to 3 feet high, of vigorous growth and branching habits. The pods are of good size, broad and filled with very large, sweet wrinkled peas of green color and a very fine flavor.

AMERICAN CHAMPION. American Champion is one of the very best selections of the Telephone type. The varieties of this class are all distinguished by their extra large pods, which are always liberally filled with Peas of great size and of particularly good flavor. It does not come into use until near the end of the season, and, as it grows from 4 to 5 feet high, the vines need some support, but it well repays both the waiting and the extra labor, for, properly cared for, it bears an extremely bountiful crop of the most delicious Peas.

CHAMPION OF ENGLAND. An old variety, but considered by many the best tall-growing sort; but needs support always. Prolific bearer of large pods, well filled with large wrinkled Peas; quality is simply elegant; 5 feet high.

Pkt., 10 cts.; oz., 50 cts.; $\frac{1}{4}$ lb., \$1.75.

JOHN BAER. A new early variety of recent introduction. The plants are of vigorous growth, very productive, ripening evenly to the stem; about ten days later than Earliana; retaining its size to the end of the season. Fruit is a bright red and very attractive. A good sort for market gardeners.

GREATER BALTIMORE. A main crop variety, excellent for canning; fruit large, smooth and well formed; color bright red; a heavy cropper.

MARYLAND MY MARYLAND. A wonderful "Double Yielding" Tomato, offered last year for the first time, entirely distinct, never before has there been a vegetable so remarkable. It is simply startling in its immense productiveness.

CRIMSON CUSHION. Or Beefsteak Tomato, is very large, round and regular; bright scarlet skin, flesh solid, best quality, seed cells small and few. Plants are very prolific, fine appearance, good shipper.

MATCHLESS. Large, bright red, long keeping Tomato. The solid fruits are produced on strong, vigorous prolific vines. Very distinct.

NEW GLOBE. This new Globe or Ball shaped Tomato is ideal for the home garden; it is excellent for slicing without waste, one slice like another. The rich, juicy, meaty tomato flavor gives a certain zest and joy in the eating. The vines ripen the first fruits with the second earlies, they yield a heavy crop and continue to bear until frost. The skin is glossy, smooth and a lovely red, the flesh is firm and has few seeds.

RED ROCK. An extraordinarily solid, smooth, very red tomato; a very heavy producer of excellent shape and very superior texture and flavor.

PONDEROSA. The Giant Tomato. Of the Large Fruited Tomatoes, this is a gem. The vines are of strong growth. When planted in good soil and pruned to a single stem the fruits often reach one pound in weight. They are largely oblong in form, deep through, usually ribbed or ridged, deep purple color, solid flesh, small seed cells and have fine sweet flavor.

Crimson
Cushion
Tomato

ACME. An early, purple fruited Tomato. The vine is large and very prolific, bearing fruit in clusters of four or five. The first fruits ripen early, and the fine, smooth large Tomatoes are produced until frost comes. One of the A1 standard varieties.

DWARF STONE. Is the largest Dwarf Tomato in existence. The fruit is red. Specimens weighing one pound each are quite common. The season is nearly as early as "Dwarf Champion" but the fruits are twice the size of that sort. Amateurs not used to training vines, find this a splendid variety because of being Dwarf and robust.
